

## **Peterhead to Fraserburgh Beach Run**

**Date: 5th April 2025**

The Peterhead to Fraserburgh Beach Run delivered a glorious day for those who braved its 16.5 mile coastal route. Despite a reputation for being a true test of determination on a bad day, today's conditions were surprisingly pleasant. We all know how unpredictable this run can be, and many of us have experienced both extremes over the years.

The course began at Peterhead Golf Club and hugged the picturesque coastline, offering moments of beauty along with the challenge. Runners passed by the iconic Rattray Lighthouse, took a scenic diversion through Inverallochy Golf Course, and continued through Cairnbulg before heading home via the Waters of Philorth. The route featured a few water crossings - a welcome refresher to cool the tootsies. The sand, with its varying camber, can sometimes be the kiss of death for unwary runners and with marathon season on the horizon, many of our usual runners opted to stay safe.

Today's weather provided a predominant side wind combined with a tail wind, which added both a challenge and an unexpected aid along the way. Whilst our numbers may have been few, those who did take on the challenge showcased impressive determination.

A huge well done to our standout performers:

- Sean Pirie
- Callum Mutch
- Duncan Abernethy
- Grant Dewar
- Karen Robertson

Their efforts, along with those of all participants, made this event a memorable mix of endurance, perseverance, and community spirit. Congratulations to everyone who took part and proved once again that the Peterhead to Fraserburgh Beach Run is as much about the journey as it is about the finish.
